

GROUPS

Groups are the backbone of our online community. Events, volunteer opportunities, message boards and most emails all start through groups. You will see the groups which you currently belong to on your Personal Home Page and also by clicking the Groups tab in the Navbar.

To see other groups you may wish to join, type a name in the search box. 'Open to All' groups will have more information visible to non-members than 'Invitation or Request Required' groups, but all visible groups will show a description of the group, meeting day and/or time and leader information. Click the Group Name to access this additional information.

To find a specific group or kind of group use the **...discover a new group** option found above the groups list. When you have found a group you would like to join, click the **Request to join** or **Join group** button.

Actions

Request to join

Actions

Join group

Tip You will see **Request to join** if approval from the group leader is required to join. An email will be sent to the group leader notifying them of your request. Clicking **join group**, on the other hand, will add you to the member list immediately.
